

Assignment 2 – Conditional Statements

Problem Statement:

You work in XYZ Corporation as a Data Analyst. Your company has told you to work with the if-else condition.

Tasks To Be Performed:

1. Take three user inputs and print the greatest number from those inputs using if-else condition. Edge cases, if any, should also be handled.

```
In [10]: a = int(input("Enter a: "))
b = int(input("Enter b: "))
c = int(input("Enter c: "))
```

```
Enter a: 1
Enter b: 2
Enter c: 0
```

```
In [11]: greatest = a
if a>b and a>c:
    greatest = a
elif b>a and b>c:
    greatest = b
else:
    greatest = c

print(f'The greatest is {greatest}')
```

```
The greatest is 2
```

```
In [ ]:
```
